

26th Thieme Lecture in Organic and Bioorganic Chemistry

“Hybrid and Supramolecular (Nano) Materials for Biomedical Applications”

Prof. Luisa De Cola
University of Milano, Italy

Luisa De Cola is Professor at the University of Milan and head of the unit Materials for Health at the Istituto di Ricerche Farmacologiche Mario Negri, IRCCS, Italy, since November 2020. She is also part time scientist at the Karlsruhe Institute of Technology (KIT), Germany.

After her post-doc in the USA, she was appointed Assistant Professor at the University of Bologna (1990). In 1998, she was appointed Full Professor at the University of Amsterdam, The Netherlands. In 2004, she moved to the University of Muenster, Germany. In 2012, she has been appointed Axa Chair of Supramolecular and Bio-Material Chemistry, at the University of Strasbourg.

She received several awards, the most recents being the Izatt–Christensen Award in Macrocyclic and Supramolecular Chemistry (2019) and the gold Medal Natta (2020). Her main interests are labels for diagnostics, and nano- and porous structures for biomedical applications. She has published 390 papers, filed 40 patents and has a H-Index of 84.

Oct 13 Day of Organic Chemistry at the University of Stuttgart 2023 (TOCUS)

9:00 am	Opening remarks
9:15 am	Presentations of doctoral students from the Universities of Stuttgart, Konstanz and Tuebingen
5:30 pm	Welcome remarks by Dr. Susanne Haak (Georg Thieme Verlag)
5:45 pm	Thieme Lecture by Prof. Luisa De Cola (University of Milano, Italy)
