Weber	Vertigo and Disequilibrium: A Practical Guide to Diagnosis and Management	2
Weinstein	Geriatric Audiology	2
Zebrowski	Stuttering and Related Disorders of Fluency	4

ComSci: Cases

When it comes to applying information in a clinical setting, cases are invaluable for transitioning knowledge into practice. Each real case walks readers through history, testing, questions, diagnosis, treatment, and reading, so students can learn to handle patients. Online-first cases mean instructors can teach the most contemporary information without a delay between the screen and the real world.

Cases: Audiology
Adult
Pediatric
Cases: Speech-Language Pathology

MedOne@Home

Users are no longer confined to the building with MedOne@Home offsite access. This allows them to find information anywhere, anytime. They can set up an individual username within your department's license, so all they need is internet access to view content, create notes, and highlight text. Plus, their account auto-syncs to remember recently viewed content and bookmarks.

For more information, please visit <https://try-medone.thieme.com>

The MedOne App is freely available

for users at institutions with access to MedOne content. It is designed to make browsing, accessing, and reading simple and easy. It lets users download and read e-books and journal articles offline.
