Important information for MedOne TTA

We proudly announce that we migrated Thieme Teaching Assistant to our up-to-date MedOne platform. Please read the following information to enjoy the new MedOne TTA.

New URL

- MedOne TTA has a new URL: **tta.thieme.com**
- Please be sure to change the product link in your favorite list and/or your library catalogue.
- If you are using a proxy with URL rewriting, **please inform us about your rewritten URL** (e.g. tta-thieme-com.thieme.idm.oclc.org) via your Thieme sales contact or via medone@thieme.com.

New Proxy/Firewall Settings

Below you will find the new OCLC/EZproxy stanza for MedOne TTA.
You may use the same URLs and additional information for configuring all other proxies or firewalls.

Title MedOne Thieme Teaching Assistant
URL https://tta.thieme.com
HJ tta.thieme.com
HJ https://profile.thieme.de
HJ http://profile.thieme.de
DJ thieme.de
DJ thieme.com

OCLC/EZproxy users, please use the following stanza setup in addition to the above proxy settings:
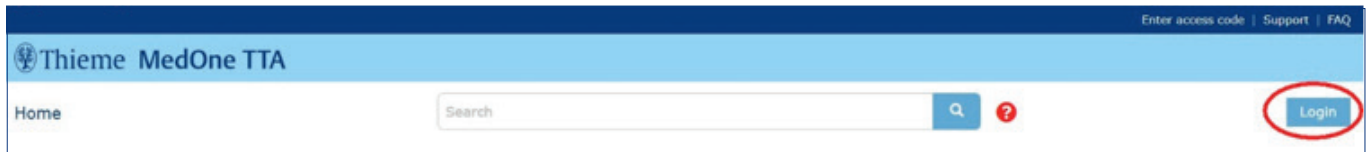

https://help.oclc.org/Library_Management/EZproxy/Database_stanzas/CookieLaw

Login Information

- Go to **tta.thieme.com** or use the (proxied) link in your institution's library catalogue.
- **Authentication via IP range**: If your institution uses MedOne TTA with IP range authentication and you are in that IP range, you will be automatically logged in. You can identify that by checking the upper right corner of the website header for your institution's name.

- **Authentication via OpenAthens/Shibboleth**: If your institution uses MedOne TTA with OpenAthens/Shibboleth authentication, click on the "Login" button in the upper right corner of the header.

In the following window click on "OpenAthens Login" or "Shibboleth Login" and follow the next steps.

You can identify a successful institutional login by checking the upper right corner of the website header for your institution's name.

- **Authentication via personal credential**: If you are using a personal MedOne account for MedOne TTA click on the "Login" button in the upper right corner of the header and enter your username and password. You can identify a successful personal login by checking the upper right corner of the website header for your name.

- **Create a home access**: If you are using an institutional license and you would like to customize your user experience (e.g. personal favorites, notes, playlists), you can create a home access. Please click on the "Create home access" button in the upper right corner of the header and follow the next registration steps.
