

MedOne Ophthalmology

**The essential multimedia reference
for ophthalmology**

MedOne. Empower Yourself.

Thieme

MedOne Ophthalmology

MedOne's powerful platform is perfect for residents and experienced specialists alike. By combining expert information with stunning visuals, the site serves as both a learning and technical tool. MedOne makes it easy for busy practitioners to research at home, at work, or on the go.

When dealing with the complexities of diseases of the eye and their treatment, ophthalmologists need to look no further: MedOne Ophthalmology is a dynamic educational resource featuring core and cutting-edge topics, authoritative videos and valuable content collections covering the field of eye care. Thieme has created an educational resource for residency programs and practicing surgeons providing them with answers and guidance to patient problem areas and important concepts of diagnosis and management within surgical eye disease.

For the specialist

- ▶ Analyze new surgical techniques
- ▶ Run through standard procedures
- ▶ Diagnose cases effectively and confidently
- ▶ Check what leaders in the field are doing

For the resident

- ▶ Absorb knowledge about surgical technique
- ▶ Train with resources accessible anytime
- ▶ Observe a vast library of technical videos
- ▶ Follow expert advice for operative cases

For the institution

- ▶ Cultivate a culture of learning anytime
- ▶ Appeal to prospective residents and faculty
- ▶ Improve efficient teaching and quality of care
- ▶ Build support for individual growth

Top titles

The Wills Eye Handbook of Ocular Genetics, by Levin/Zanolli/Capasso of Wills Eye Hospital, a practical, reader-friendly guide on the diagnosis and management of ocular genetic conditions.

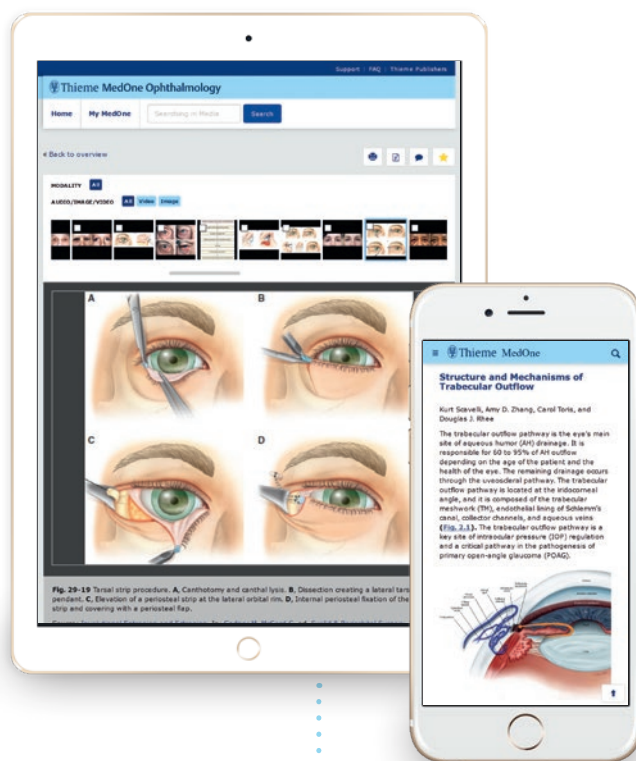

Neuro-Ophthalmology Illustrated, by Biousse/Newman, is an up-to-date, beautifully illustrated text that guides readers in recognizing signs and symptoms, localizing pathology, developing a differential diagnosis, and selecting a management strategy.

E-Books

Get the benefits of print books plus electronic features in this extensive e-book collection, where it's easy to expand images, watch videos, and write notes. While you stay up-to-date with the library's frequent content updates, you can customize your experience with versatile viewing modes or leave the screen behind when you download and print chapters. And don't limit yourself to the e-book: follow links to related articles and keep your research going.

E-Journals

Find the one-stop solution to your research needs when you perform an integrated search of Thieme's ophthalmology journals and the PubMed database, then read full articles from Thieme journals. Cite the articles you need, whether you're using sources for a paper, catching up on innovative research, or writing your own articles. And, if you're on the go, you can download articles to bring along.

Responsive Design

Change the way you view ophthalmology by changing your device: with automatic screen adaptation, you can take MedOne Ophthalmology along as an anyplace platform. All you need is internet access to make the most of your time, no matter what feature you need. It's simple to research when you can effortlessly transition between computers, tablets, and phones.

Procedures

Every time you walk into the OR, do so with confidence – confidence in your skills and your ability to attain the desired result. The procedures section of MedOne Ophthalmology has what you need to walk into surgery prepared: quickly review a tricky procedure with step-by-step instructions, read through various approaches to find the best, or watch operative videos to get the details right.

Media

Images and videos are at your fingertips when you zoom in or make notes on media from a vast databank. Round out your studies by watching video clips or comparing images. For presentations, simultaneously download more than one image complete with legends and sources using the multiple selections feature.

Search

There's a lot of content on MedOne Ophthalmology. But don't worry: you don't have to sift through it to find the information you need. MedOne's intuitive search engine not only auto-fills terms but also filters the results, so you can instantly find what you want. Plus, it's easy to narrow your searches with filters and options to hide irrelevant results.

Download the **MedOne App** for on-the-go learning!

MedOne App

Carrying around books is a thing of the past. The free MedOne App offers you offline access to all the e-books, e-journals, cases, and procedures on the platform. Available for Android and iOS, the app lets you download full books and journals for in-app offline reading. The only limit: your device's storage capacity.

MedOne Playlists

Take charge of your learning by making a playlist on MedOne. As you discover key content, add it to one of your playlists or create a new one to easily find it again. Stay organized by uploading your own documents or linking directly to online materials. Curated playlists let you create a private study guide, compile course material for students, or share a playlist with all MedOne users.

MedOne@Home

Users are no longer confined to the building with MedOne@Home offsite access. This allows them to find information anywhere, anytime. They can set up an individual username within your department's license, so all they need is internet access to view content, create notes, and highlight text. Plus, their account auto-syncs to remember recently viewed content and bookmarks.
