

MedOne Plastic Surgery

Plastic Surgery from
the experts, all in
one powerful platform

MedOne Plastic Surgery is centered on surgeons' needs, so surgeons can focus on what matters: patients. Curated content, direct from respected experts, means that trainees and practitioners can connect to resources, elevate their skills, and find insights into every aspect of plastic surgery.

Content covering the breadth and depth of Plastic Surgery for all levels: MedOne is an updated collection that includes **operative videos, journal archives, cases, procedures, dynamic board review, and books** from renowned surgeons. Learn from the best minds in plastic surgery, with content from Foad Nahai, Rod Rohrich, Al Aly, Jeffrey Janis, Heather Furnas, Bill Adams, Ashkan Ghavami, Donald Lalonde, Sam Most, and many more experts.

When growing your practice

Offer new procedures and improve patient outcomes with the content on MedOne. Want to do body contouring like Dr. Hoyos or perform wide awake hand surgery? Learn tips, tricks, and techniques from the experts to hone your craft.

MedOne Playlists

Save and organize content from MedOne or link to anywhere on the web. Ideal for personal research and sharing curriculum with students, residents, or colleagues. **Plus, pre-made playlists by subject experts curates content for you.**

With the boards approaching

Quiz yourself with interactive Q&A designed for the plastic surgery boards, plus review cases and procedures.

Questions and Answers

Multiple-choice Q&A comes in an intuitive, interactive interface. With options on timing, exam and question type, users can efficiently and effectively study

The night before surgery

Review a temporoparietal fascia flap procedure with clear surgical videos and explanatory text, or review fat grafting for midface rejuvenation with detailed photos and illustrations. The wealth of videos, images, and text on MedOne are comprehensive, didactic, and it's easy to find exactly what you need.

Before in-office procedures

Anyone working with fillers and injections can review safety protocols and best practices. Your entire staff has access to crucial learning material.

When writing, presenting, or teaching

As you research, download content as a PDF or PPT slide with automatically included bibliographic info that's compatible with reference manager software. Create playlists with any content from MedOne, the web, and share curriculums with students or colleagues.

What MedOne can do

For the specialist

- Advance professionally with new techniques
- Connect to innovative research
- Prepare for an upcoming surgery
- Access up-to-date information from global leaders

For the resident

- Understand the latest clinical techniques and surgical procedures
- Examine fundamental and innovative topics
- Review core topics before rounds
- Prepare for board exams with interactive Q&A

For your hospital, department, or practice

- Invite students to learn any time or place
- Augment trainee and surgeon skill sets
- Magnify emphasis on personal development
- Design a program to appeal to residents

Everyday

Review procedures, cases, browse the latest research, read a chapter or watch an operative video. The depth of content is easily searchable, and with the ability to highlight, take notes, plus access remotely or offline through the MedOne App, you can review the exact information you need, when you need it – making MedOne the ultimate daily reference.

Licensing Options

An institutional license to one of the MedOne platforms comes with the following advantages:

- Available to institutions through the internet
- Several licensing options allow for flexible agreements
- Unlimited campus- or site-wide access controlled through your institution's IP address
- All licenses automatically receive updated content as new titles are released
- Shibboleth and OpenAthens compliant
- MARC records available for download
